The projects are complete.

Final punch occurred on 04/14/08. Certificates of Substantial Completion were signed this day. All warranties in regard to IDF / MDF begin on 04/14/08.

We are currently waiting on some warranty information to give to the owner. As soon as we receive that from the contractor, we will forward all of the manuals to the district as required.

Folks,

I was wondering what is the final status on the MDF/IDF projects at the listed schools: Athens, Carrillo, Price, Hutchins, Benavidez, Palo Alto ?

Also, when is the effective date for the warranty on the AC units that were installed ? Please let me know. Thanks.
